META AI LIABILITY CHECKLIST

8

CHECKS

WHY THIS MATTERS

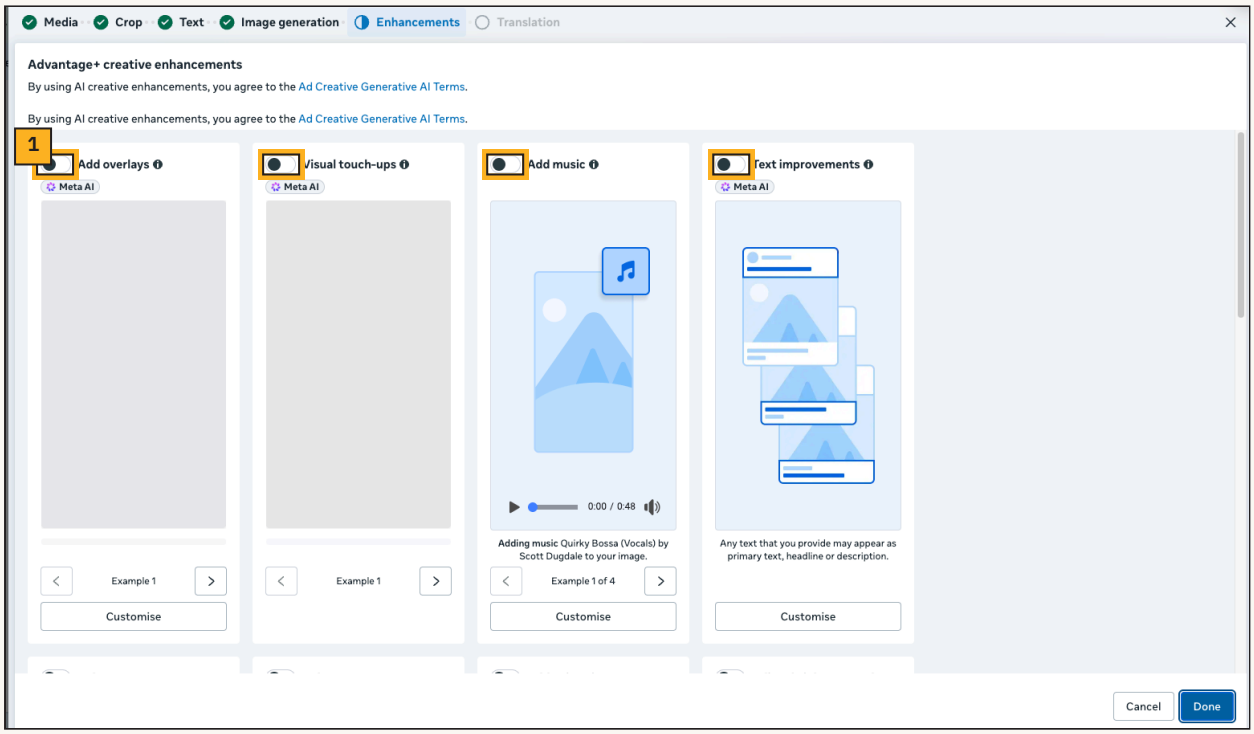

Starting Friday, Meta's new terms make you solely responsible for anything its AI does to your ads — including features Meta turns on by itself. Run through this before Friday.

01

OPEN EVERY LIVE AD'S ADVANTAGE+ CREATIVE SETTINGS

☐

Expand every collapsed menu — don't trust the summary view. Untick anything you don't want applied.

ADVANTAGE+ CREATIVE ENHANCEMENTS: EVERY TOGGLE SHOULD BE OFF

DO THIS

1. Go through every enhancement, one by one
2. Switch off each one you don't want
3. Scroll down: more options sit below the first row

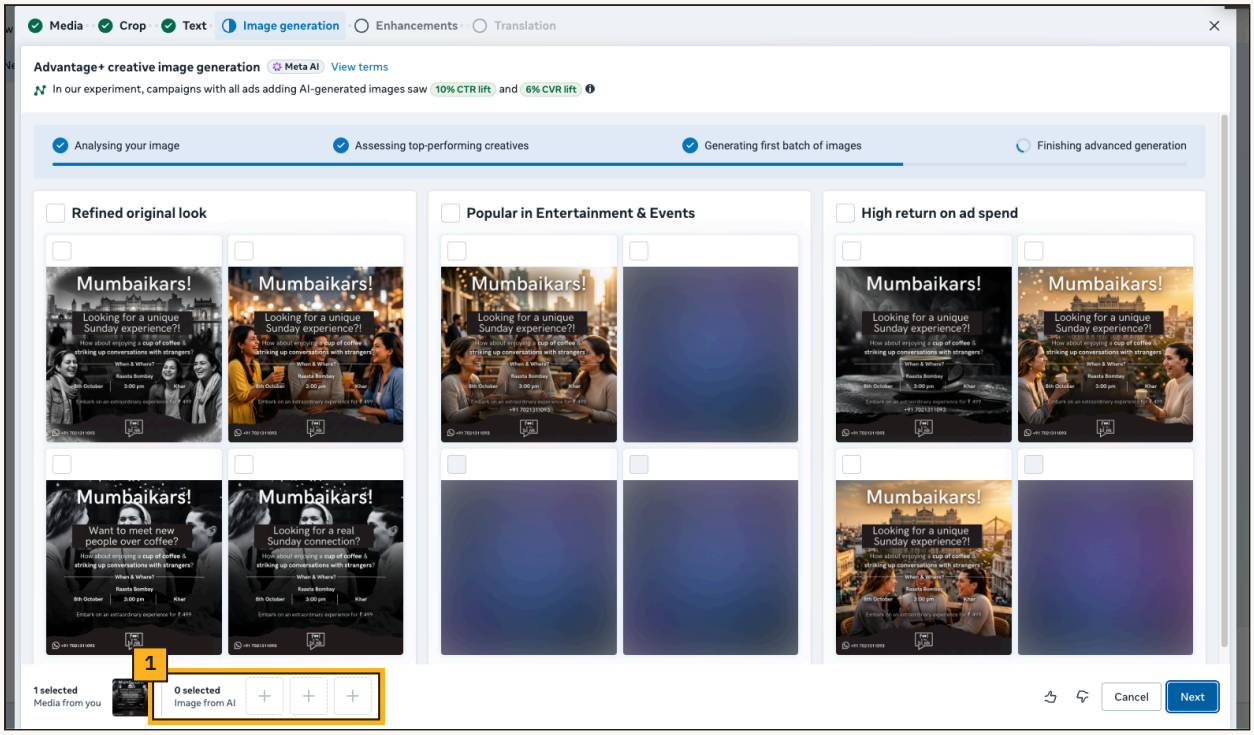

LOOK FOR

1. A toggle for each enhancement (overlays, touch-ups, music, text improvements and more)
2. Every toggle switched off

02 CHECK FOR AUTO-ADDED ELEMENTS

Sitelinks, translations, AI-generated images, carousels, background changes — these can appear without you choosing them.

2A THE AI IMAGE STEP

AFTER YOU ADD THE CREATIVE, META OFFERS AI-GENERATED IMAGES

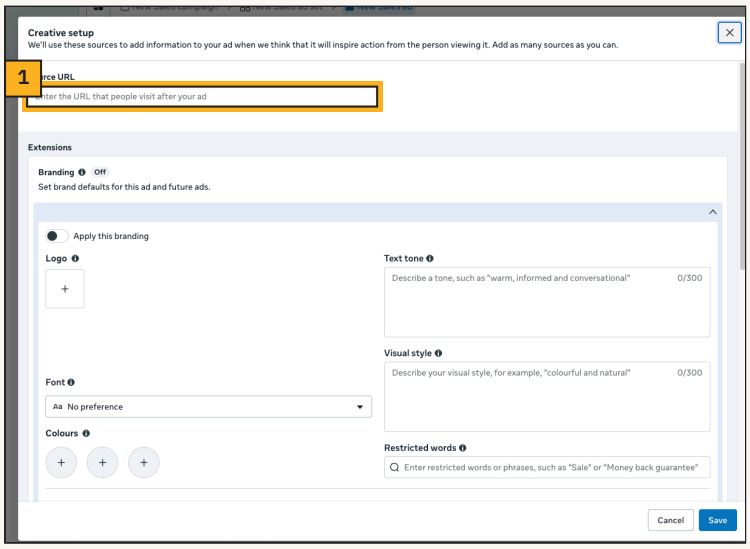

DO THIS

1. Leave every AI image unticked
2. Select none, then continue

LOOK FOR

1. "0 selected" beside Image from AI

2B THE SOURCE URL

CREATIVE SETUP: SOURCE URL FIELD

WHY REMOVE IT

This usually creates sitelinks from the landing page you provide, which are easy to miss.

DO THIS

1. Open Creative setup
2. Remove the link from Source URL

LOOK FOR

1. The Source URL field left empty

03

CHECK THE AD LIBRARY FOR YOUR OWN BRAND

Preview each placement and search your brand name in Meta's Ad Library to see what's actually live — not just what you uploaded.

☐

04

OPT OUT OF PRODUCT BROWSING ON EXISTING ADS

If you want taps to land on your own site instead of an in-app product page, this needs to be turned off per ad.

☐

05

RE-CHECK AFTER EVERY ACCOUNT UPDATE NOTICE

Features can switch on silently with future updates. Don't assume today's audit covers next month.

☐

06

KEEP A DATED QA LOG

Screenshot your settings and the live ad for each campaign, dated. If something goes wrong later, you need proof of what you checked and when.

☐

07

AGENCIES: UPDATE CLIENT CONTRACTS

Add a clause on who owns AI-edit review and who absorbs the cost of catching Meta's changes.

☐

08

RESTAURANT & LOCAL BUSINESS CLIENTS: VERIFY AUTO-TRANSLATED COPY

Prices, offers, and dish or product names specifically. Translation errors here are expensive.
